NO OTHER DOMESTIC SUPPLIER UNDERSTANDS DEGASSERS BETTER

Fortunately, there is a viable alternative. Refractories now available from Resco Products have been helping steel makers take control of their degasser operations with a combination of brick and specialty products that free up dollars and speed repairs. And if that were not reason enough to make the switch, we are extending campaign life significantly in the process.

PROVEN EXPERIENCE

Resco Products, with the purchase of National Refractories product lines, a domestic refractory manufacturer has invested the time and talent to understand the degasser. As a result, we have developed the products needed to successfully supply today's RH-KTB, RH, and RH-OB systems.

COST CONTROLLED

Controlling costs is an everyday concern for every steel maker. By helping to reduce lead limes, cutting inventory overhead, and increasing vessel life, Resco products can help you lower your overall degasser operating costs for a more profitable bottom line.

	Monolithic	Brick	Mortar
Throat	Permacast FG-HS	GRFG 100	Permanente Mortar
Snorkels	Vibrocast ASC 8LT (C-C) w/2% SS Needles Permagon SII Gunning Mix (Maintenance)	GRFG 100	Permanente Mortar
Safety Lining		Nucon 60 Krilex 621-2	Permanente Mortar
	Monolithics	Brick	Mortar
Upper Vessel	Permacast FG HS	Nucon 60 Krilex 621-2	Permanente Mortar
Mid Vessel	Permacast FG HS	Nucon 60 Krilex 621-2	Permanente Mortar
Lower Vessel Floor	Permacast FG HS	GRFG 100 Krilex 621-2	Permanente Mortar

INVENTORIES REDUCED

A less complex design can dramatically reduce the number of sizes and shapes needed. This translates into reduced inventory requirements.

PROBLEMS SOLVED

It is easy to make simple things complex. But it takes hard work, experience, and sound thinking to make complex things simple. Resco has the knowledge, the focus, and the industry presence to make a difference in your degasser operations. If you are not already taking advantage of our degasser expertise, we invite you to learn more about what we have to offer.

Founded in 1946, Resco has served its markets with specialized products ever since, initially, with the refining industry and later in the steel industry. Innovations have been key to Resco's long success, including AA-22 and the original patent on semi-universal ladle brick.

Recent acquisitions have diversified Resco into many new refractory markets. The addition of Nationals product lines allows Resco to offer a comprehensive range of products, and dolomite products are available.
